

Landscape Drip Irrigation Design & Management

3rd Edition

ISBN: 978-1-935324-15-7

Developed
for the

September 2016

Table of Contents

| | | | |
|--|----|--|----|
| Acknowledgements | v | Wetted Pattern Shapes | 29 |
| Preface | vi | Wetted Radius of Emitters | 29 |
| Chapter 1 — History of Drip Irrigation | | Wetted Volume Under Emitters | 32 |
| The Drip Irrigation Concept | 2 | Depth of Water Infiltrated | 35 |
| Philosophy of Landscape Microirrigation | 2 | Chapter 5 — Landscape Irrigation Requirement | |
| Design Principles for Microirrigation | 3 | Estimating the Landscape Irrigation Requirement | 41 |
| Types of Microirrigation for Landscapes | 5 | System Design and Operation for Established Trees and Shrubs | 46 |
| Chapter 2 — Types of Emitters | | Line Source Calculations | 54 |
| Discrete On-Line Emitters | 12 | Microsprinkler Area of Coverage, Spacing, and Flow Rates | 56 |
| In-Line Emitters | 12 | Chapter 6 — Installation and Maintenance | |
| Dripline | 13 | Major Components Installation | 59 |
| Drip Tape | 13 | Emitter Placement | 61 |
| Chapter 3 — Soils, Plants, and Water | | Emitter Placement on Slopes | 62 |
| Soil Texture | 15 | Line Source on Slopes | 62 |
| Size of Soil Particles | 16 | Maintenance | 63 |
| Soil Intake Rate (Infiltration Rate) | 17 | Scheduling | 63 |
| Water Storage and Drainage | 18 | Chapter 7 — Considerations in Layered Soils | |
| Soil Moisture Extraction | 20 | Effect of Soil Layers on Water Movement | 65 |
| Salts in Water and Soil Solutions | 21 | Effect of Root Balls on Water Movement | 68 |
| Readily Available Water | 22 | Chapter 8 — Prevention of Clogging | |
| Water Available to Plants | 23 | Filtration | 71 |
| Chapter 4 — Emitter Spacing and Design Considerations | | Water Treatment | 72 |
| Emitter Placement | 27 | Methods of Physical Water Treatment | 76 |
| Typical Emitter Flow Rates, Spacing, and Application Rates | 27 | Appendix A — Practice Problems | 81 |
| Preliminary Design Factors | 27 | Appendix B — References | 85 |
| Determining Site Requirements for Drip Systems | 28 | | |
