

Pumps & Pumping Systems

ISBN: 978-1-935324-30-0

Developed
for the

October 2015

Table of Contents

Chapter 1 — Introduction

Background.....	1
What Is a Pump?	1
When Is a Pump Necessary?	2

Chapter 2 — Hydraulics Review

Energy.....	5
Continuity	7

Chapter 3 — Types of Pumps

Types of Pumps Used in Irrigation.....	11
Centrifugal Pumps	11
Vertical Turbine Pumps.....	15
Submersible Pumps.....	20
Jet Pumps	22
Positive Displacement Pumps.....	22

Chapter 4 — Basics of Pumps: Force, Work, and Power

Work	27
Power	27

Chapter 5 — Pump Performance

Selection Criteria.....	31
Design Flow Rates.....	32
Design Pressure — Total Dynamic Head.....	35
Net Positive Suction Head	39
Submergence.....	39
Total Dynamic Suction Lift.....	41
Cavitation	42
Pressure Within the Pump	43
Pump Curves	44
Centrifugal Pump Curves	45
Vertical Turbine Pump Curves.....	47
Pump Selection	49

Chapter 6 — Families of Curves

Impeller Diameter and Speed Families of Curves	53
Affinity Laws	55
Changing the Pump Speed	56
Multiple Pump Stations.....	58
Pumps in Series	58
Pumps in Parallel.....	59

Chapter 7 — Pump Selection

Matching Selection Criteria.....	63
Total Dynamic Head.....	63
Selection Procedure.....	63
System Requirements	64
Pumpage	67
Net Positive Suction Head	68
Reading Pump Curves.....	71
Computer Programs for Pump Selection	76
Smart Phone Apps for Pump Selection.....	81

Chapter 8 — Operating Point for Pumps

Pump and System Curve Together	85
System Curve	85
Changes in the System	89

Chapter 9 — Power Units

Power Unit Options	93
Power Plant Efficiency.....	102
Comparing Energy Sources.....	103

Pumps & Pumping Systems

ISBN: 978-1-935324-30-0

Developed
for the

October 2015

Table of Contents, cont.

Chapter 10 — Automation and Control

Pumping System Controls	107
Automation.....	108
Integrating Pump Stations with Irrigation Controllers.....	111
Variable Frequency Drives.....	111
VFD Potential Problems	113

Chapter 11 — Operation and Maintenance

Using VFDs to Lower Energy Costs	121
Using VFDs to Improve the Operation of the Pumping Station	122
Prepackaged Pump Stations with VFD Control... ..	122
Motor Management and Maintenance	123
Overheating	123
Preseason and Postseason Checklists	124
Routine Inspection and Maintenance	125

Chapter 12 — Irrigation Pumping Costs

Comparing Alternatives	131
Fixed Costs	131
Demand or Other Fixed Energy Charges	132
Variable Costs.....	132
Operating Cost.....	133

Appendix A — Capital Recovery Factors

Appendix B — Answers to Practice Questions
