

The UNIVERSITY of OKLAHOMA

Landscape Irrigation Technician Class

Learn the basics of hydraulics and irrigation system installation and maintenance. This full-day hands-on learning session covers gluing and repairing PVC pipe, installing nozzles and adjusting heads, setting and repairing electric valves, and field and controller wiring techniques.

Overview of class:

Landscape Irrigation Technician class participants will learn to:

- Cut and join pipe, know the limitations of different piping systems, and understand basic hydraulics
- Lay out, and install piping and water delivery components; backflow prevention devices; mechanical, hydraulic, and electrical irrigation controls; and other irrigation components
- Troubleshoot, and repair irrigation components and systems

To become a Certified Irrigation Technician (CIT), you must:

- Register for the exam. Minimum requirement; 6 months of 1,000 hours of irrigation-related experience
- **Pass the irrigation technician exam.** The 3-hour exam includes 100 equally-weighted, multiple choice questions on basic irrigation principles, basic electric principles and basic hydraulics
- Comply with the Select Certified Code of Ethics
- Remain in good standing. CITs must submit 20 continuing education credits per 2-year cycle
