

Landscape Drainage Design

2nd Edition

ISBN: 978-1-935324-23-2

Developed
for the

October 2014

Table of Contents

Foreword.....	vii	Culverts	27
SECTION I — Background Information		Dynamic Boost.....	27
Hydrologic Cycle	1	Electrical Boost	27
Sources of Water	2	SECTION II — Design	
Benefits of Drainage in Relation to Healthy Soil and Plant Life	3	Surface Drainage.....	29
Degree of Drainage Problem	5	Subsurface Drainage	29
Chapter 1 — Soil and Water Relationships		Comprehensive Drainage System.....	29
What Is Soil?	7	Drainage Design Simplified.....	30
Soil Function.....	7	Checklist for Drainage Design	30
Soil Compaction and Saturation	8	Combining Surface and Subsurface Drain Systems.....	31
Soils Characteristics Based on Textural Classification.....	8	Chapter 4 — Surface Drainage Design	
Gathering Soils Information	9	Design and Layout of Surface Drainage Systems.....	33
Soil Probing and Analysis.....	9	Computing the Runoff Potential	37
Soil Modification	10	Calculating Pipe and Grate Size	37
Vegetation Influence	10	Chapter 5 — Subsurface Drainage Design	
Chapter 2 — Topography and Grades		Design and Layout of Subsurface Drainage Systems.....	41
Length and Steepness.....	11	Depth and Spacing.....	43
Slopes, Grades, and Contours.....	11	Prefabricated Drain System Design	45
Drainage Considerations	17	Subsurface Drainage Design Examples.....	46
Chapter 3 — Drainage Materials and Applications		Recreational Turf Design Examples.....	48
Drain Pipe	19	Other Methods to Design Subsurface Drainage Systems.....	51
Prefabricated Drain Systems.....	23	Chapter 6 — Discharge Outlet Design	
Composite Drain	24	Discharging Collected Water	53
Catch Basins and Inlets	24	Pop-Up Drainage Emitter.....	53
Channel Drains.....	25	Wet Ponds.....	56
Swales.....	26	Dry Ponds	57
Terraces	26	Culvert Outfall	58
Fill Dirt	26		

Landscape Drainage Design

2nd Edition

ISBN: 978-1-935324-23-2

Developed
for the

October 2014

Table of Contents, cont.

Chapter 7 — Surface Drainage Installation

Catch Basin and Inlet Installation.....	59
Channel Drains.....	61
Channel Installation Next to Concrete Deck.....	64
Roof Drainage.....	65

Chapter 8 — Subsurface Drainage Installation

Common French Drain Installation — Corrugated Pipe.....	67
Common French Drain Installation — Smooth Wall.....	68
Calculating Rock Quantities for Subsurface Drain Envelopes.....	71

Cost of Labor.....	71
Prefabricated Drain Systems.....	72
Foundation or Footing Drains.....	74
Curtain Drain.....	74
Interceptor Drains.....	75
Drainage Under Pavement.....	77

Appendix A — Glossary.....	79
----------------------------	----

Appendix B — Troubleshooting Drainage Problems.....	85
--	----

Appendix C — References.....	89
------------------------------	----
